The Pädagogisches Landesinstitut Rheinland-Pfalz in cooperation with Oxford University Press is pleased to announce the launch of its new programme “Aufholen nach Corona im Fach Englisch.” Schools in Rheinland-Pfalz now have the opportunity to participate in a two-phase Diagnosis and Support Programme taking place from June to November 2022. Learners start by taking the Oxford Placement Test and are grouped into CEFR levels according to their results. Oxford University Press will then provide pupils, teachers and schools with a range of English language follow-up support.

Diagnostic Testing

- an adaptive, online test placing pupils accurately at their CEFR level
- reports on communicative competencies and language abilities
- pupils receive a personalised report card to share with parents
- CEFR level is communicated to pupils and teachers

Tailored Support

Oxford Online Practice

- targeted practice
- supports all four skills
- self-study and classroom

Oxford Reading Club

- ebooks with interactive functions
- supports all four skills
- long-term benefits of extensive reading

Basic Support

- additional basic support package of downloadable, editable worksheets
- open educational resources covering a wide range of language topics
- for classroom use and self-study; available to all schools in Rheinland-Pfalz

Teacher Support

We look forward to working together to help learners bridge skills and knowledge gaps, and support young people on their path to English language success!
